

## UFO Sightings

**Link to data and documentation:** <https://www.kaggle.com/datasets/NUFORC/ufo-sighXngs>

### About Dataset

This dataset contains over 80,000 reports of UFO sightings over the last century. There are two versions of this dataset: scrubbed and complete. The complete data includes entries where the location of the sighting was not found or blank (0.8146%) or have an erroneous or blank time (8.0237%). Since the reports date back to the 20th century, some older data might be obscured. Data contains city, state, time, description, and duration of each sighting.

### Inspiration

- What areas of the country are most likely to have UFO sightings?
- Are there any trends in UFO sightings over time? Do they tend to be clustered or seasonal?
- Do clusters of UFO sightings correlate with landmarks, such as airports or government research centers?
- What are the most common UFO descriptions?
