About Dataset

This dataset was created to list all shows and movies available on Netflix. It was collected from JustWatch in March 2023, containing data available in the United States.

Content

This dataset contains two files, one for the titles (titles.csv) and the other for the cast (credits.csv) of each movie and show on the platform.

The titles.csv contains more than 6k titles with 15 columns

The credits.csv contains over 81k credits of actors and directors, with 5 columns
