

Elspot prices

Link to data and documentation: <https://www.energidataservice.dk/tso-electricity/Elspotprices>

About the dataset:

Day ahead spotprices in DK and neighboring countries

Prices in DKK are not updated during weekends and on public holidays. Prices in DKK will be updated at the first coming work day.

In Nord Pool Spot market players can buy and sell electricity for delivery the following day in their own area - Norway, Sweden, Finland, Denmark or Germany. The day-ahead prices indicate the balance between supply and demand.

Hour UTC	Hour DK	Price area	Spot price (DKK)	Spot price (EUR)
2023-04-21 21:00Z	2023-04-21 23:00	DK1	738.21	99.06
